Giving Shape to Ideas

RISE ABOVE THE COMPETITION

WITH VALUE-ADDED PRINTING FROM KONICA MINOLTA

Today's market requires that printers continually add services to their business to help clients stand out in the marketplace. Digital printing is just not enough anymore — we must rethink how to add value to the printed sheet and increase profit margin. The AccurioShine 101 delivers embellishments that will make printed pieces more eye-grabbing and undeniably effective.

Printing enhancements that expand your business

- Digital foil (Gold/Silver/White/Colors) using foil-on-toner technology
- Lamination
- Spot gloss

Applications that attract and engage customers

- Eye-catching, experiential direct mail
- Impactful business cards
- Jaw-dropping invitations
- Luxurious quality glosses

RETHINK VALUE-ADDED PRINTING

The AccurioShine 101 delivers.

High quality

Employs foils designed optimally for the AccurioPress series toner. Its excellent transfer characteristics mean high-quality embellishments are achieved at a low price.

Multi-task

Various embellishments can be performed simply by changing the film. No time-consuming or costly setup.

Dust removal function

Removes dust on the paper before laminating or transferring foil to prevent quality problems.

Easy-to-use operation

The touchscreen allows you to easily make various adjustments on the fly. You can even automatically adjust the temperature by simply pressing the switch.

Air-suction paper feed

Ideal for digital print documents, the air-suction paper feed minimizes damage. You can adjust the amount of air and prevent two-sheet feeding.

Easy maintenance

Less downtime and decreases operator costs.

HOW IT WORKS

The AccurioShine 101 printer profile is optimally designed for overprinting on foil, achieving high-quality prints with excellent adhesion. The IQ-501 Intelligent Quality Optimizer available on all AccurioPresses ensures accuracy and precision with constant, closed-loop paper registration.
